

Hospitals and Health Systems

Benefit administration tailored to your needs

With over 40 years of earned industry expertise and nearly 100 hospital and health system clients, EVHC understands your unique challenges and opportunities making our experts more than qualified to help you solve them. We work with you to diagnose the problems facing your health plan and implement the right solutions to help.

A focus and discipline on keeping care within your domestic tier to increase domestic utilization and increase revenue

Customized provider network directories that encourage domestic utilization

Health system-specific data analytics and reporting that allows for tailored solutions to steer care domestically

Flexible domestic funding arrangements including cashless/no pay check suppression, reimbursement methodologies, tiered benefit designs and nondomestic savings opportunities

Aligning care management programs with hospital best practices and integrating with hospital affiliated partners, sponsored wellness programs and community offerings

ACCREDITED
