

A Better Employee Benefits Experience

Employers invest over \$15,000 per employee per year on benefits, and over 450 hours of HR's time per year on benefits-related support. Yet benefits are consistently underutilized by employees, resulting in low satisfaction.

HealthJoy's simple, scalable navigation solution boosts benefits utilization without asking more of HR.

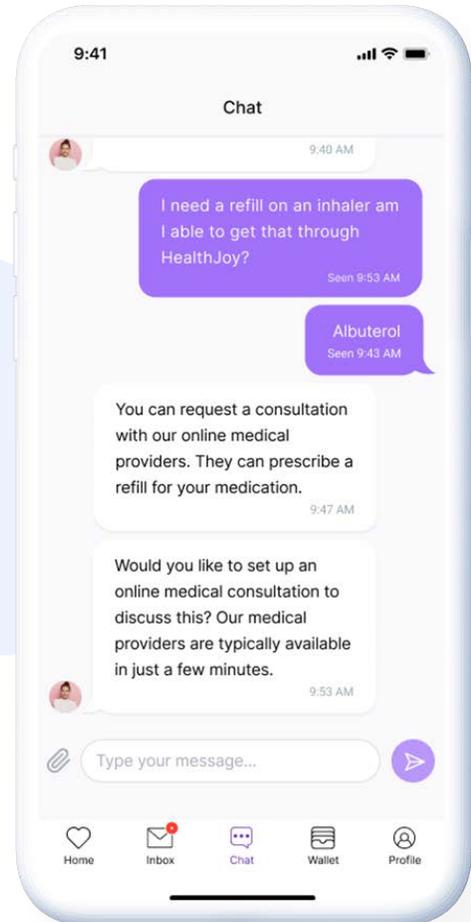

A Benefits Experience Built For You

HealthJoy provides a personalized benefits experience for every employee enrolled on the medical plan. The mobile-first solution is backed by live concierge support available to members 24/7. HealthJoy and your TPA are working together to seamlessly improve the way members find, access, and utilize their benefits.

24/7 Care Navigation and Steerage

HealthJoy ensures that your employees are utilizing their benefits effectively. Our in-app tools and unlimited concierge team access help your employees understand and use their benefits, while steering them towards cost-containment programs.

Automated Benefits Communication

HealthJoy proactively engages employees throughout the year without the need for HR involvement, offering benefits education and encouraging employees to use the benefits available to them. HR teams can supplement HealthJoy's communication by sending custom messages through the app.

Enhanced Benefits with Utilization-based Pricing

With HealthJoy, employers can supplement their benefits package without an additional "PEPM" fee. Provide fully-integrated virtual exercise therapy programs¹ for the individuals who need it to deliver a better employee benefits experience and curb insurance costs.

Why Employers Choose HealthJoy

HealthJoy helps employees get more out of their benefits while helping HR teams be more effective. Our team and technology will support you to ensure HealthJoy makes your benefits program a success.

- > Industry expertise and ongoing support from HealthJoy's Customer Success and Implementation teams
- > Library of materials to support you with Open Enrollment and new hire onboarding
- > Real-time visibility into program performance through detailed reporting dashboards
- > Help center and chat support

The screenshot displays the HealthJoy dashboard interface. At the top, there is a header with a 'Client Logo' placeholder, the HealthJoy logo, and the user name 'Matt Williams admin'. A left-hand navigation menu includes icons for Home, Contacts & Company, Benefits, Eligibility, Reporting, and Education & Marketing. The main content area is titled 'Welcome to HealthJoy Dashboard' and includes a progress bar for 'SETUP NEEDED INFORMATION' (2/5). Below this, there are several task cards: 'Provide Contacts and Company Info' (checked), 'Tell Us About the Benefits You Offer' (due 1/14/2021, assigned to Merja Reynolds), 'Attend Kickoff Call' (due 1/14/2021), 'Information Gathering and Review' (due 1/14/2021), and 'HealthJoy Review' (due 1/14/2021). To the right, there are sections for 'Your Contacts' and 'Company Info'. At the bottom, there are three promotional cards for 'Help Center', 'Contact HealthJoy', and 'Tips and Tricks'.
