

# Bringing Savings with Population Health Management

How does a well-being solution generate medical cost savings? We make the greatest impact by applying the right interventions with those who need it most – vulnerable, at-risk, and difficult-to-engage members.

## EVHC's Population Health Management Solution

is powered by three key steps:

### Harness

#### Data To Find Members

with specific, actionable opportunities to improve their health

### Focus

#### Engagement Efforts

on at-risk and vulnerable members

### Motivate

#### Better Health Choices

using the power of human connection

## Results that Speak Volumes<sup>1</sup>.

Get started today and take the first step towards results like:

**\$27.49**  
**COST SAVINGS**  
per identified member,  
per month

**reduction in inpatient costs**  
for identified members

**3.6:1**  
**RETURN ON INVESTMENT**

<sup>1</sup> Lifestyle and Condition Coaching follow-up study (October 2020)

Services are provided by ActiveHealth Management, Inc. ActiveHealth programs, care team and care managers do not provide diagnostic or direct treatment services. ActiveHealth assists members in getting the care they need. The program is not a substitute for the medical treatment and/or instructions provided by health care providers. Because the benefits, programs, services, member incentives, list prices and reimbursement rates vary significantly among health plans, the impact and total savings related to the Lifestyle and Condition Coaching program may vary by plan, and implementation of the program with a particular plan may not result in total cost savings or similar results.
